Skills

JS / TS (NodeJS, Express, React, Next)

HTML5 / CSS

Python / Pytest

C++

SQL

Git

Cloud (AWS, Azure, GCP)

DevOps (Docker, Kubernetes, Linux, Nginx)

CI/CD (GitHub Actions)

Agile software development

Other

French (Native)

English (C2 International Professional Proficiency)

TOEIC : 980/990 + Cambridge FCE

German (B1 Intermediate)

Driving license (French Class B) + Car

Interests

Physical sciences

Robotics

Electric Guitar

Calisthenics

Car and motorcycle enthusiast

Calvin Chiffot

Software Engineer - Security & Test

Passionate software developer with a keen interest in emerging technologies. I aim to join a dynamic company that would allow me to apply my knowledge, explore various development topics and technologies, as well as continue learning and expanding my skills.

Experience

Consultant Software Engineer - Security & Testing

2026 - 2028, T&S, Stuttgart, Germany

- Test Framework & Architecture (Global eBike Leader) : Designed and built a custom end-to-end (E2E) automated testing framework using pytest to validate a complete connected e-bike ecosystem.
- Embedded & Hardware Testing : Implemented low-level test scenarios to assess the robustness, communication protocols, and security of embedded components and firmware.
- Backend & Security Testing : Automated security and integration testing across cloud APIs and backend services to ensure data pipeline integrity.

Developer Consultant Work-Study

2023 - 2024, LTTD Consulting, Saint-Herblain, France

- Designed and developed web applications using Angular, deployed as customized screens within the ERP Infor M3, as part of a team of developers.
- Worked closely with clients to manage future projects and update existing applications.

Software Developer Work-Study

2021 - 2022, SCC France, Saint-Herblain, France

- Designed, developed, and implemented an automated data ingestion tool using Azure Data Factory and SQL to optimize the data processing workflow.
- Designed and developed web applications, covering both front-end and back-end, using HTML/CSS, JavaScript, and Node.js.
- Managed project integration and deployment with cloud technologies such as AWS, utilizing GitHub Actions to ensure continuous delivery.

Software Developer / DevOps Intern

2021 - 11 Weeks, Arkea, Saint-Herblain, France

- Managed the integration and deployment of internal tools using Jenkins, Docker, DBMaintain, and Liquibase.

Education

Master in Computer Science and Information Systems Engineering

2022 - 2024, EPSI Nantes

Bachelor in Software Engineering, DevOps: CDA

2021 - 2022, EPSI Nantes

DUT in Computer Science

2019 - 2021, University Institute of Technology of Vannes

Certificates

CS50's Introduction to Artificial Intelligence with Python

In progress, HarvardX
