

Calvin Chiffot

Software Engineer - Security & Testing

+33 7 81 37 32 27 | calvinchiffot@protonmail.com | Open to international opportunities | calvinchiff.com

Profile

Passionate software engineer with a keen interest in emerging technologies. I aim to join a dynamic company where I can apply my knowledge, explore various development topics and keep learning.

Professional Experience

Consultant Software Engineer - Security & Testing 2026 – 2028

T&S, Stuttgart, Germany

- Test framework & architecture (Bosch eBike Systems): designed and built a custom end-to-end (E2E) automation framework in `pytest` to validate a complete connected e-bike ecosystem.
- Embedded & hardware testing: implemented low-level test scenarios to assess robustness, communication protocols and firmware security.
- Backend & security testing: security audits and automated integration testing across cloud APIs and backend services to guarantee data pipeline integrity.

Developer Consultant Work-Study 2023 – 2024

LTDD Consulting, Saint-Herblain, France

- Designed and developed web applications using Angular, deployed as custom screens within the Infor M3 ERP, as part of a development team.
- Worked closely with clients to manage projects and update existing applications.

Software Developer Work-Study 2021 – 2022

SCC France, Saint-Herblain, France

- Designed, developed and implemented an automated data ingestion tool using Azure Data Factory and SQL to optimise the data processing workflow.
- Designed and developed front-end and back-end web applications using HTML/CSS, JavaScript and Node.js.
- Managed cloud deployment using AWS and GitHub Actions to ensure continuous delivery.

Software Developer / DevOps Intern 2021 (11 weeks)

Arkéa, Saint-Herblain, France

- Managed the integration and deployment of internal tools using Jenkins, Docker, DBMaintain and Liquibase.

Education

Master in Computer Science and Information Systems Engineering 2022 – 2024

EPPI Nantes, France

Bachelor in Software Engineering, DevOps (CDA) 2021 – 2022

EPPI Nantes, France

DUT in Computer Science 2019 – 2021

University Institute of Technology of Vannes, France

Technical Skills

Languages & web: JavaScript / TypeScript (Node.js, Express, React, Next.js), HTML5/CSS, Python / `pytest`, C++, SQL, Git

DevOps: Docker, Kubernetes, Linux, Nginx, CI/CD (GitHub Actions, Jenkins), AWS, Azure, GCP

Methods: Agile software development, E2E automation and security testing

Certificates, Languages & Interests

Certificates: CS50's Introduction to Artificial Intelligence with Python (in progress, HarvardX)

Languages: French (native), English (C2 – TOEIC 980/990 + Cambridge FCE), German (B1)

Interests: Robotics & embodied AI (HRL/MARL), electric guitar, calisthenics, athletics, motorcycle, physical sciences, space & aerospace

Driving licence: class B + car
